## PROJECTS:

**CleverBooks (Responsive Website):**

Created a responsive inventory management website named CleverBooks.
- Technologies Used: HTML, CSS, VS Code, Git, GitHub.
- Achievements: Implemented a fully responsive design ensuring compatibility across various devices. Integrated interactive features using JavaScript. Project hosted on GitHub.

**AI Voice Assistant:**

Technology used: Python, Git, Github.
- Implemented voice command recognition to execute tasks like playing songs on YouTube, fetching Wikipedia summaries, and telling jokes.
- Developed functionality to interact with notepad, allowing voice-to-text writing with a command to stop.
- Integrated mathematical expression evaluation for on-the-fly calculations.
- Designed custom responses for personalized interaction using regular expressions.
- Enhanced user experience by handling errors gracefully, ensuring robust performance.

---

## INTERNSHIP:

**Web Development Intern:**
CODSOFT | REMOTE | JULY 2024
- Developed a Personal Portfolio: Designed and deployed a personal portfolio using HTML, CSS, and JavaScript to showcase skills and projects.
- Created a Calculator Application: Built a fully functional calculator using JavaScript, enhancing logic and problem-solving abilities.
- Built a Responsive Website: Developed a responsive website from scratch, ensuring compatibility across devices and improving user experience.

## CERTIFICATIONS:
